Dear Sir:

I, Kurt Rohlfs, represent that I am an attorney of record for this invention and that I am empowered to act on behalf of Cascade Microtech, Inc., which is the owner of the entire interest in the above-identified application. The terminal part of the statutory term of any patent granted on the instant application that would extend beyond the expiration date of any of U.S. Patent No. 6,825,677 (hereinafter said patent) is hereby disclaimed. It is agreed that any patent so granted on the instant application shall be enforceable only for and during such period that it and **said patent** are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the undersigned disclaimant does not disclaim the terminal part of any patent granted on the instant application prior to the expiration date of the full statutory term of **said patent** that later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 U.S.C. § 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term except for lack of common ownership between it and the instant application as stated above.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code and that such willful statements may jeopardize the validity of the application or any patent issued thereon.

Enclosed herewith is the terminal disclaimer fee for a small entity in the amount of \$65.00.

Executed this 3rd day of January, 2007.
